

## About Mono County Workforce Services

If you own or manage a business or organization, we are here to help build the workforce you need. Mono County's dedicated Workforce Services team helps you save time and money to hire and train staff. We administer three state and federally funded programs which combine wage-paid work, job skills training, and supportive services to help individuals succeed in the workforce, and to help employers find effective solutions to their staffing needs:

- Subsidized Employment
- On-the-Job Training
- Job Skills Placement

Our Workforce Services participants may have all or part of their wages subsidized through these programs for a limited time which allows employers the chance to build capacity and try out a new employee with little risk. Small businesses, organizations and non-profits that cannot afford to hire additional staff may benefit from limited-time, no-cost assistance while helping participants gain valuable work skills.

Interested in learning how these programs can help you save money to hire and train new employees? We'd love to talk to you!

## Hire. Train. Save.

Mono County Workforce Services can help you save time and money hiring and training staff. We administer state and federally funded programs which combine wage-paid work, job skills training, and supportive services to help individuals succeed in the workforce, and to help employers find effective solutions to their staffing needs. Everyone benefits! Read more, then contact us to find out how these programs can work for you.

### 1. Subsidized Employment

Mono County's Subsidized Employment Program can reimburse employers up to \$10,500 over 6 months for hiring eligible participants.

100% wage reimbursement is available for the first 30 days, up to \$3,000.

The remaining 5 months wages are reimbursed at a flat rate, not to exceed actual wages:

**\$1,500 per month for 40 hours per week**  
**\$1,000 per month for 30-39 hours per week**  
**\$500 per month for 20-29 hours per week**

### 2. On-the-Job Training

The On-the-Job Training Program assists employers with the costs of hiring and training new employees.

The program offers financial reimbursement of up to 90% of the employee's wages during the training period, based on the business size.

Training periods can range from a few weeks up to 6 months. Mono County will approve the training timeframe based on the employee's current skills and experience, and the complexity of the job.

Size of Business	Reimbursement Level
0-50 employees	90% of employee's wages
51-250 employees	75% of employee's wages
250+ employees	50% of employee's wages

### 3. Job Skills Placement

Job Skills Placement provides employers with staff at no cost. Similar to an internship, it places program participants in work assignments with public organizations, private businesses, or non-profit agencies. It's a win-win: Participants gain valuable work skills and experience to further their career goals, and the employer gets assistance and increased productivity.

Mono County administers this program, and participants are not considered employees of the organization or business in which they are placed. Worker's Compensation is paid by the state.
